

Traffic Management

- Obey speed limits and buckle up
- Ensure your license is valid
- Keep tynes low when travelling
- Sound horn and slow down when entering through access ways
- Always apply the handbrake and lower the tynes when parked
- Don't use mobile phones when driving or operating mobile plant
- Pedestrians **MUST** keep to designated walkways where provided
- Keep out of load exclusion zones when vehicles are being loaded
- Keep clear of operating mobile plant
- Use positive contact communication with plant operators
- Never approach an operator on 'moving' plant, instead, signal for the operator to stop and get permission to approach
- People should only enter buildings through pedestrian access doors

Stay on the green
and be seen, stick to
the walkways!
