

BRADKEN

PRODUCT APPLICATIONS

Dozer Wear Liner Packages

Bradken has over 30 years experience in producing wear packages to suit customer needs. Over that time, Bradken has produced a long list of satisfied customers in the mining sector.

Duaplate® and Vidaplate® are tough chromium carbide overlay plates that are the backbone of Bradken's wear resistant solutions. Bradken has extensive experience in creating dozer wear liner packages for a variety of wheeled and tracked dozers.

The benefits of using Duaplate and Vidaplate:

- **Longer wear life:** Duaplate and Vidaplate have been proven to last 3-5 times longer than Q & T steel.
- **Less maintenance:** Duaplate and Vidaplate will significantly outlast Q & T steel, reducing the number of inspections and refurbishments required.
- **Reduced downtime:** Duaplate and Vidaplate Dozer packages are manufactured to fit, meaning no field trimming is required.
- **Supplied as a kit:** Bradken can supply the wear package as a kit to be installed on-site. As an alternative, Bradken has its own refurbishing facilities available.
- **Reduced welding:** Duaplate and Vidaplate dozer wear liners are provided in as few pieces as possible to reduce welding.
- **A versatile solution:** Duaplate and Vidaplate dozer wear liners can be manufactured to fit any dozer blade.
- **Adaptability:** Duaplate and Vidaplate are a proven wear resistant choice that are available in a wide range of grades and thickness to suit any operating condition.

BRADKEN

PRODUCT APPLICATIONS

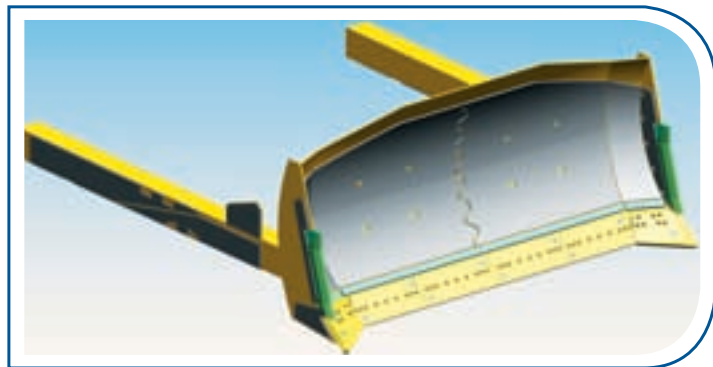

Dozer Wear Liner Packages

30 years of experience in wear plate development has led to the current Bradken dozer wear package. Bradken's Duaplate and Vidaplate wear liners are designed to provide maximum resistance to abrasion under medium impact conditions. The wide range of grades and thicknesses of Duaplate and Vidaplate means that an ideal wear package can be developed to operate in any condition.

Bradken will provide Vidaplate and Duaplate liner plates pre-cut and formed to fit any style of dozer blade. This ensures that there is no field trimming required and welding is kept to an absolute minimum. The significantly longer life of Duaplate and Vidaplate wear liners, minimal maintenance and quick installation time ensures that downtime is kept to a minimum.

'Duaplate and Vidaplate wear packages will ensure that downtime is minimised and productivity is maximised'
